## PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience in developing REST APIs and backend applications using Java, Spring Boot, Hibernate/JPA, and MySQL. Skilled in backend development concepts including API integration, database management, exception handling, and layered architecture. Experience in building secure and maintainable applications with clean coding practices and efficient database operations. Proficient in developing scalable backend systems and testing APIs using Postman

## TECHNICAL SKILLS

**Programming Languages:** Java , Java 8

**Frameworks & Technologies:** Spring Framework, Spring MVC, Spring Boot, Spring Security, Spring JPA, Hibernate, ORM, JDBC, Microservices, gRPC, GraphQL, REST APIs, JWT

**Frontend Technologies:** Angular, React

**Database:** MySQL

**Tools & Platforms:** STS IDE, IntelliJ IDEA, Apache Tomcat, Swagger, GitHub, Postman

**Data Formats:** JSON, XML

**DevOps & Servers:** Apache Tomcat, Docker, CI/CD

## PROJECTS

### Payment Processing System

- Developed a secure payment processing system for handling online transactions between users and merchants
- Built RESTful APIs for payment initiation, transaction processing, and transaction history management
- Implemented transaction validation, exception handling, and payment status management (Success, Failed, Pending)
- Integrated MySQL database operations using Hibernate/JPA for storing payment and transaction details
- Followed layered architecture and clean coding practices for scalable backend development

Tech Stack: Java 8, Spring Boot, REST API, MySQL, Hibernate/JPA, Maven, Git

### Digital Account Opening System

- Developed a digital account opening application for customer onboarding and online account registration
- Created REST APIs for customer registration, account creation, and verification workflows
- Implemented input validation and account approval status management
- Managed backend database operations using Hibernate/JPA and MySQL
- Worked on scalable backend development using Spring Boot and layered architecture
- Performed API testing and validation using Postman

Tech Stack: Java 8, Spring Boot, REST API, MySQL, Hibernate/JPA, Maven, Git

## EDUCATION

**Bachelor of Business Administration (Computer Applications)**

**2022-2025**

**Pune University**

**Higher Secondary Certificate (HSC)**

**2020-2022**

**Maharashtra Board**

**Secondary School Certificate (SSC)**

## CERTIFICATION

Oracle Certified Foundations Associate (Oracle)

Oracle Java Explorer (Oracle)
